

Ceramic Table Top Cleaning Guide & Care Instructions

Ceramic tabletops are durable and low-maintenance, but proper care ensures they stay beautiful and long-lasting.

1. Daily Cleaning

To keep your ceramic tabletop spotless:

- **Step 1: Wipe the surface with a dry microfiber cloth to remove dust and debris.**
- **Step 2: Use a damp microfiber cloth with warm water to wipe down the surface.**
- **Step 3: For deeper cleaning, apply a pH-neutral cleaner or mild dish soap using a sponge.**
- **Step 4: Rinse the cloth with clean water and wipe off any soapy residue.**
- **Step 5: Dry the surface with a clean microfiber cloth to prevent water spots.**

3. Preventative Care

- **Avoid Sharp Objects: Always use cutting boards to prevent potential scratches.**
- **Use Coasters and Placemats: Protect against hot pots, pans, and spills.**
- **Clean Spills Immediately: Wipe spills as soon as they happen to avoid staining.**
- **Avoid Harsh Chemicals: Stick to pH-neutral cleaning solutions and avoid ammonia or bleach-based products.**

Important: Avoid abrasive scrubbers, bleach, or acidic cleaners like vinegar, which can damage the ceramic surface.
